About Me

Dharani is currently pursuing a Bachelor of Computer Applications (BCA) and is passionate about coding and continuous learning. With a strong interest in problem-solving and software development, Dharani actively hones coding skills through various projects and challenges.

Skills

- C Programming
- C++
- JAVA
- PYTHON
- HTML,CSS
- JS

Education

SCHOOL DAYS EDUCATION

2024-2026

I completed my schooling at Sakthi Vigneshwara Kalvi nilayam where I developed a strong foundation in academics and extracurricular activities. During my higher secondary education, I focused on subjects like [mention key subjects, e.g., Computer Science, Mathematics], which sparked my interest in technology and problem-solving.

Bachelor of Computer Application

2024-2026

I am currently pursuing a Bachelor of Computer Applications (BCA), where I am continuously enhancing my coding skills and expanding my knowledge in software development, databases, and web technologies. My education has provided me with a strong foundation in programming, problem-solving, and analytical thinking.

Experience

Student

I have gained valuable experience in coding and software development through various projects and challenges. My journey includes working on real-world applications, problem-solving tasks, and hands-on programming in languages like C, C++, Java, Python, and JavaScript

I have also developed front-end and back-end applications, enhancing my skills in web development, database management, and system design. Additionally, I have worked on game development using UnityHub and have successfully built interactive projects. My continuous learning and practical experience have strengthened my analytical thinking, debugging skills, and ability to develop efficient solutions.

I have gained extensive experience in software development, problem-solving, and web technologies through various projects and challenges. My journey includes working with C, C++, Java, Python, and JavaScript, allowing me to develop efficient algorithms and scalable applications. I have successfully completed 55+ front-end projects, enhancing my skills in HTML, CSS, JavaScript, and UI/UX design. Additionally, I have worked on game development using UnityHub, where I contributed to an interactive career exploration platform as part of the Smart India Hackathon 2024.
